UP1652 Splice Enclosure

Key Features

- Lift-off back and front covers offer 360° easy access to internal components
- Adjustable splice bars permit flexibility in dressing cable conductor splices
- Two-way bonding/grounding bracket provides positive grounding of all components
- Rugged metal housing made of mill-galvanized steel for durability and low maintenance costs
- Our unique multi-stage paint process meets or exceeds EPA standards, and provides a tough corrosion-resistant finish for longer life

Description

The UP1652 is a round-cornered square-design telephone equipment splice enclosure. The UP1652 (16"W x 52"H) enclosure includes two splice support bars and a bonding and grounding bracket assembly. Two mounting stakes are also included.

If padlock protection is required, order the RETROLOCK found in the Accessories section.

Application

The UP1652 enclosure serves as an above-ground housing for splices and splice cases, up to 13 inches in diameter and 30 inches in height. The UP1652 also accommodates T1 trunk carrier repeater cases and 2-type splice case.
